

# Jérémy Ducla

Looking for a Product Engineer position

## PERSONAL PROFILE

Mechanical Engineer, and son of a farmer, I am looking for a **engineering position from September 2023** in the field of agricultural machinery in order to start my professional career.

## EXPERIENCES

### **JOHN DEERE** Design office intern

- January - July 2023, Arc-Lès-Gray (70)
- Member of the Continuous Improvement Division
  - Problem Detection - Theoretical Analysis
  - Stress analysis - Finite elements
  - Prototyping - Field tests
  - Industrialization - Feasibility - Costing

### **MONOSEM** Design office intern

- July 2021 - January 2022, Largeasse (Fr-79)
- Member of the Continuous Improvement Division
  - Problem Detection - Theoretical Analysis
  - Stress analysis - Finite elements
  - Prototyping - Test bench creation - Field tests
  - Industrialization - Feasibility - Costing - After-sales service kit

### **Feros** Farmhand

- Summer 2018/2019/2020, Commensacq (Fr-40)
- Farm worker during the summer seasons
  - Management of foreign teams - 2018/2019
  - Hoeing of 400ha of beans, Tractor driver, maintenance - 2020

## EDUCATION

### **University of Technology of Troyes**

- Engineering diploma : 2018 - 2023, Troyes (France)
- Engineering training in Mechanical Engineering
  - Specialised in Design and Industrialization of Mechanical Systems in relation to the Environment
  - Study and sizing of mechanical systems. Finite element modeling
  - Mechanics of materials and structures, fluid mechanics
  - Mechanics of non-deformable solids and solid continuous media
  - Thermodynamics, thermal machines and mechatronic systems

### **University of Newcastle**

- Exchange semester : Summer 2022, Newcastle (Australia)
- Computer Aided Engineering and Manufacturing
  - Advanced Fluid Mechanics and CFD
  - Geothermal, Hydro, Ocean and Hybrid Systems

### **Cegep of Trois-Rivières**

- Exchange semester : Winter 2020, Trois-Rivières (Canada)
- Metallurgy - Aluminum, Steel, Cast Iron
  - Collaboration with the Metallurgy center of Quebec (CMQ)
  - Material properties, crystallographic analysis, casting/foundry processes
  - Mechanical testing and radiography of castings and welded parts

### **High School**

- High School Diploma : 2018, Aire-sur l'adour (France)
- Merits, Specialised in Engineering Sciences and Mathematics

## LANGUAGES

- French : Mother tongue
- English : Linguaskill Business B2+ / TOEFL IBT 93/120
- Spanish : USUAL esPro B1+ certification

## SKILLS

- Agricultural environment: Son of a farmer - Passionate about machinery
- 3D design: CATIA, Inventor, Creo, SolidWorks, TopSolid
- PLM : Windchill / ERP : Sage X3, GBOM
- Finite elements: Abaqus, Inventor Nastran, Ansys Workbench
- Code: Python (Sizing), LaTeX (Writing), C++ (Arduino)
- Office software applications: Office 365 Pack, Adobe Suite

## HOBBIES AND INTERESTS

## ACCOMPLISHMENTS

### **VIVESCIA** The farm of the future

- January - May 2019
- Creation of a model representing the farm of the future
  - Wooden structure with automatic LED backlight
  - CAD, CAM, welding, Arduino programming

### **Big Bird** Hydrogen airship

- May 2021
- 3D modeling of the rear ball head of an airship
  - Prototyping: 3D printing
  - Mounting tests with electric motors
